

New Product Announcement

Amplical

RF for RF Engineers

Amplical Corp has announced the availability of a new family of broadband high accuracy relay attenuators. The model 50MAPI.2 is a DC to 2 GHz attenuator that features 0.1 dB step size resolution. This unit is ideal for fine amplitude adjust in broadband systems. Total attenuation is 1.2dB with step sizes 0.1, 0.2, 0.3 and 0.6 dB. Insertion loss is less than 3.0 dB and incremental accuracy is +/-0.1 dB. Average power handling is 1W. Control is via +12V at 14 mA per bit. Connectors are sma (f) and delivery is from stock. Other models are available that feature additional attenuation and different frequency ranges.

About Amplical

www.amplical.com

Amplical is determined to be a leading supplier of quality RF microwave components. Utilizing the latest in RF Microwave technology, Amplical focuses on premium quality amplifiers and attenuators at affordable prices.
